

How It Works

Schedule a training date and time with Paige.

Reminder: the center is open only to adults.

There are no fees for attending learning labs or for self-directed planning and play.

When you participate in any 90 minute or more session, you are able to spend time in the materials room, and can select materials to take with you.

Time spent at Wemagination is counted toward professional development credit hours; we issue hard copy or digital certificates in competencies 4 & 5.

Wemagination Center for
Creative Education
1634 University Blvd.
